- IT Applications and Graphics Designing

PROJECTS

Project Title: Simple E-Commerce Website

Description: Designed a straightforward yet visually appealing restaurant website using HTML, CSS and Bootstrap5, Efficiently used bs5 containers and utility classes to ensure seamless layout and able to produce responsiveness across devices

Technologies Used: HTML, CSS and Bootstrap5

Features Implemented: Created a clean and intuitive user interface featuring easy navigation, descriptive menus, and contact details. Implemented responsive design principles to ensure seamless accessibility across various devices, thereby maximizing user engagement and satisfaction.

Project Title: Netflix Landing Page Clone Project

Description: Developed a replica of the Netflix Landing page with pure HTML5, CSS3 and Bootstrap5 with media queries

Technologies Used: HTML, CSS and Bootstrap5

Features Implemented: Skillfully replicated the Netflix layout structure, integrating essential components and ensured seamless responsiveness across laptops, tablets, and mobile screens, prioritizing optimal user interaction and visual consistency.
